

AKHIL BHARATIYA TERAPANTH MAHILA MANDAL

We found something shocking at our school laboratory today!

One box of crackers emit more than 7 types of chemicals and they are extremely dangerous!

WE LOVE CELEBRATING DIWALI BUT HATE ITS POLLUTION

MISSION SAVE PLANET EARTH

We got scared. We knew Earth was choking and so we decided to save it.

PAPA! THE CLIMATE IS CHANGING. WHEN WILL WE CHANGE? DON'T BUY CRACKERS FOR ME. I AM HAPPY WITHOUT CRACKERS

SOMETIMES KIDS HAVE TO TELL THEIR PARENTS HOW ONE BOX OF ENTERTAINMENT CAN LEAD TO DISEASES AND DESTRUCTION

We have taken a step towards a pollution free Diwali and an Eco friendly Earth. When will you take a step?

Let this diwali be a #crackerfreediwali
